Md. Almabud **Juwal**

Senior Software Engineer

linkedin.com/in/almabud/ @ almabud.juwal@gmail.com
github.com/almabud/ +8801767788288
Mirpur-11, Dhaka, Bangladesh

Skills

Language	Python, Javascript, SQL, GraphQL, Golang, C/C++, HTML, CSS
Frameworks	Django, Django Rest, Django Channel, Django Elastic Search DSL, Angular, Celery, Odoo
Database	PostgreSQL, MongoDB, Redis, Neo4j
Tools	Docker, Git, CI/CD(Jenkins), Ansible, Jira, Trello
Operating systems	Linux, Windows

Experience

Present – June 2024 | Senior Software Engineer | Cogwheel Analytics, Colorado, United States

- Own and manage the "Data Cleaning" service, ensuring data integrity and accuracy
- Architect and implement new features for backend services using Python, enhancing system functionality and user experience
- Develop and maintain frontend applications using Angular, implementing user-friendly interfaces and features
- Troubleshoot and resolve bugs, contributing to system stability and performance improvements

Python | FastAPI | Pandas | BeautifulSoup | Scrapy | Git | PostgreSQL | Celery | Celery-beat

May 2024 – July 2023 | Senior Software Engineer | Brainstation 23 Ltd, Dhaka, Bangladesh

- Successfully led and mentored a team of **3** junior software engineers, resulting in a **50% - 70%** improvement in team collaboration and project success
- Designed and implemented robust software architectures for **Task Station** and **Sayvery**
- Spearheaded architectural decisions to ensure scalability, maintainability, and optimal system performance
- Managed the technical backlog, prioritizing tasks based on project goals and stakeholder requirements
- Collaborated with cross-functional teams to refine and adjust backlog items, ensuring alignment with project timelines
- Design and implement web scraping and invoice parsing

Python | Django | Django Rest | BeautifulSoup | Scrapy | Git | PostgreSQL | Celery | Celery-beat | pdf parsing

June 2023 – October 2021 | Software Engineer | Brainstation 23 Ltd, Dhaka, Bangladesh

- Enhanced the system performance by **10%** by optimizing database query
- Accelerated the API performance by **5%** by introducing caching mechanism
- Stabilized the system performance by fixing numerous bug
- Migrated the newer version of Python and Django by refactoring the code base
- Contributed to implement web socket to real-time sync with the back-end and frontend using GoLang
- Supervised **1+** Associate Software Engineer

Python | Django | Django Rest | Git | PostgreSQL | Celery | Celery-beat | Redis | Golang

September 2021 – July 2020 | Junior Software Engineer | Tirzok Private Limited, Dhaka, Bangladesh

- Reduced processing time by **14%** for **3.3M** data by using PostgreSQL Copy and Trigger function
- Boosted the server query response time by **50%** by using query optimization
- Implemented custom authentication backend
- Collaborated for designing the database and the backend architecture.
- Amplified the performance by **50%** by migrating to Graph Database from Relational Database
- Saved the client serving time by **70%** by introducing automation deployment using Ansible
- Managed a **3+** cross-functional team.

Python | Django | Django Rest | Odoo | Git | PostgreSQL | Celery | Redis | Neo4j | Jenkins | Ansible | Angular

April 2020 – December 2019 | **Web Developer | Wizdoor Inc, Dhaka, Bangladesh**

- Coordinated the design and frontend developers team
- Contributed for designing the database and the backend architecture
- Implemented chat app using Django Channel(Web Socket) that is capable of handle **1M+** of users/day

Python | Django | Django Rest | Django Channel | Git | PostgreSQL | Angular

Projects

Cogwheel Analytics

June 2024 - Present

Built a scalable analytics platform (Cogwheel Analytics) using FastAPI, Celery, and PostgreSQL to automate data ingestion, validation, and reporting. Integrated async task queues, role-based permissions, and a modular notification system to support real-time insights and enterprise workflows.

Python | FastAPI | Rest Framework | Celery | Celery-beat | RabbitMQ | BeautifulSoup | PDF parsing

TaskStation

July 2023 - May 2024

https://stage.mytask.today/login

This is a task and log management application. It can create logs and sync to Jira, Odoo Erp, Trello, and Teams.

Python | Django | Django Rest Framework | Celery | Celery-beat | RabbitMQ

Rehive

Oct 2021 - Feb 2023

https://rehive.com/

Rehive is a fintech application for Europeans.

Python | Django | Django Rest Framework | Celery | Docker | RabbitMQ | Redis | Angular

LEGISLIB

May 2020 - Jul 2020

https://legislib.com/

Collect case studies of Bangladesh, India, the Uk, USA in a pdf format and reformat the pdf and make insert it into the search engine with the case study for the Bangladesh high court and Bangladeshi law students.

Python Django | Django Rest framework | MongoDB | Elastic search | Data automation

Achievements

- 2018 Participated Acm ICPC Dhaka Site(preli)
- 2018 Achieved **4th** position at DIU Intra team programming contest
- 2017 Achieved **2nd** position at DIU Intra team programming contest
- 2017 DIU Takeoff individual programming contest and acquired **9th** position

Certifications & Courses

- 2023 AWS Certified Cloud Practitioner
- 2021 Object-Oriented Design, Coursera (course)
- 2021 The Ultimate Docker Course, Mosh Hamedani (course)
- 2020 HackerRank Python (Basic) Certificate

Teaching and Mentoring

January 2018 – December 2018 | **ACM CO-Chair | Computer and Programming Club (DIU)**

- Facilitated ACM team to organize club events
- Guided the student to engage with the Competitive Programming
- Organized Multiple Programming contests

May 2017 – January 2019 | **Student Prefect |Daffodil International University**

- Teacher Assistant for Competitive Programming and Algorithms
- Demonstrated lab practical classes for weaker students
- Assisted for evaluating performances of students
- Motivated weak students to overcome their weakness

Education

2019 **BSc in Computer Science and Engineering**, Daffodil International University, Dhaka, Bangladesh.
